Maybe even better than free.

Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Just upload the file you wantto share with your friends and we send you a download link to your file. So try our free and simple filehosting service now. You decide who you want to share your files with. filehosting provides an easy possibility for you to send large files to your friends. No account or credit card is required to get started. It is also allowed to link to the download page from websites and communities. You can give this download link to your friends by mail or instant messenger. You can upload any type of file (movies, music, documents, images, zip files and more). When you use file, you avoid storing the file you're sending in your cloud storage or mail server. Alternatively you can choose to share your download links on blogs, forums and social networking sites. If only we could, we surely would! On the other hand, using file can actually save you money. Using file, you can circumvent those limits without paying to upgrade your team chatservice. Our service is completely free for everyone. File is free to use with no gotchas and no hidden fees. Files can be downloaded from any computer fromour high speed servers. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the sizeof files that can be transferred within their apps. You don't need any special software installed to be able to download your files. Any file in any format can beuploaded and downloaded for free. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferredbetween your computer or phone and our servers, then from our servers to your friends device. Keep your files private, or send your download links only tofriends or family. Simply upload your file and share the link. Unfortunately, we can't make that part free. We have no file size limit. The cost of that datatransfer is covered by your internet service or the data plan on your phone. There are no restrictions on the number of times a file can be downloaded. This iseasy, fast and reliable filehosting! You don't need any kind of premium-accounts.
