Maybe even better than free.

When you use file, you avoid storing the file you're sending in your cloud storage or mail server. Just upload the file you want to share with your friends andwe send you a download link to your file. So try our free and simple filehosting service now. The cost of that data transfer is covered by your internet service orthe data plan on your phone. Unfortunately, we can't make that part free. File is free to use with no gotchas and no hidden fees. If only we could, we surelywould! On the other hand, using file can actually save you money. No account or credit card is required to get started. Why pay storage fees for a file that youjust wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. You don't needany special software installed to be able to download your files. You can give this download link to your friends by mail or instant messenger. This is easy, fastand reliable filehosting! You don't need any kind of premium-accounts. Any file in any format can be uploaded and downloaded for free. Our service iscompletely free for everyone. Keep your files private, or send your download links only to friends or family. Simply upload your file and share the link. Wehave no file size limit. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees.Alternatively you can choose to share your download links on blogs, forums and social networking sites. Your wallet will be none-the-lighter! Just so we're all100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device.You decide who you want to share your files with. Files can be downloaded from any computer from our high speed servers. You can upload any type of file(movies, music, documents, images, zip files and more). It is also allowed to link to the download page from websites and communities. filehosting provides aneasy possibility for you to send large files to your friends. Using file, you can circumvent those limits without paying to upgrade your team chat service. Thereare no restrictions on the number of times a file can be downloaded.
