Maybe even better than free.

Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. You decide who you want to share your files with. You can give this download link to your friends by mail or instant messenger. Any file in any format can be uploaded and downloaded for free. No account or credit card is required to get started. Our service is completely free for everyone. So try our free and simple filehosting service now. filehosting provides an easy possibility for you to send large files to your friends. The cost of that data transfer is covered by your internet service or the data plan on your phone. If only we could, we surely would! On the other hand, using file can actually save you money. Just upload the file you want to share with your friends and we send you a download link to your file. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. Simply upload your file and share the link. Files can be downloaded from any computer from our high speed servers. Alternatively you can choose to shareyour download links on blogs, forums and social networking sites. Keep your files private, or send your download links only to friends or family. Your walletwill be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers,then from our servers to your friends device. You can upload any type of file (movies, music, documents, images, zip files and more). There are no restrictionson the number of times a file can be downloaded. It is also allowed to link to the download page from websites and communities. Using file, you cancircumvent those limits without paying to upgrade your team chat service. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. File is free to use with no gotchas and no hidden fees. Unfortunately, we can't make that part free. You don't need any special software installed to beable to download your files. We have no file size limit. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many teamchat apps have limits to the size of files that can be transferred within their apps.
