filehosting provides an easy possibility for you to send large files to your friends. So try our free and simple filehosting service now. There are no restrictionson the number of times a file can be downloaded. It is also allowed to link to the download page from websites and communities. Files can be downloaded from any computer from our high speed servers. Using file, you can circumvent those limits without paying to upgrade your team chat service. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. No account or credit card is required to get started. You can upload any type of file (movies, music, documents, images, zip files and more). We have no file size limit. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Keep your files private, or send your download links only to friends or family. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. You don't need any special software installed to be able to download your files. Simply upload your file and share the link. You decide who you want to share your files with. File is free to use with no gotchas and no hidden fees. Unfortunately, we can't make that part free. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. Our service is completely free for everyone. If only we could, we surelywould! On the other hand, using file can actually save you money. Alternatively you can choose to share your download links on blogs, forums and socialnetworking sites. The cost of that data transfer is covered by your internet service or the data plan on your phone. Just upload the file you want to share withyour friends and we send you a download link to your file. You can give this download link to your friends by mail or instant messenger. Why pay
