[Updated : Sunday 13 June 2021](#)

Maybe even better than free.

Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. filehosting provides an easy possibility for you to send large files to your friends. Our service is completely free for everyone. You can give this download link to your friends by mail or instant messenger. No account or credit card is required to get started. Any file in any format can be uploaded and downloaded for free. You can upload anytype of file (movies, music, documents, images, zip files and more). Files can be downloaded from any computer from our high speed servers. So try our freeand simple filehosting service now. Unfortunately, we can't make that part free. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. Keep your files private, or send your download links only to friends or family. Simply upload your file and share the link. If only we could, we surely would! On the other hand, using file can actually save you money. There are no restrictions on the number of times a file can be downloaded. File is free to use with no gotchas and no hidden fees. Just upload the file you want to share with your friendsand we send you a download link to your file. Alternatively you can choose to share your download links on blogs, forums and social networking sites. Whenyou use file, you avoid storing the file you're sending in your cloud storage or mail server. We have no file size limit. The cost of that data transfer is coveredby your internet service or the data plan on your phone. It is also allowed to link to the download page from websites and communities. Why pay storage feesfor a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within theirapps. You decide who you want to share your files with. You don't need any special software installed to be able to download your files. Using file, you cancircumvent those limits without paying to upgrade your team chat service.
